Farmers up in arms

Hundreds stage protests in Mandya, Mysuru

Mandya/Mysuru, July 3 (NG& PM)- As part of a Statewide stir, hundreds of farmers under the banner of Karnataka Rajya Raitha Sangha (KRRS) staged a demonstration in front of the Office of Mandya Deputy Commissioner here this morning. They were demanding full farm loan waiver in Co-operative Banks and Sthree Shakthi Sanghas and stipulation of minimum SAP (State Advisory Price) of Rs. 3,500 per tonne for sugarcane.

Condemning the release of Cauvery water to Tamil Nadu, the farmers raising slogans against the State Government, marched in a procession from Sir M.V. Statue on Mysuru-Bengaluru road to DC's office where they staged a demonstration urging the Government to immediately stop release of water from KRS to Tamil Nadu.

Pressing the State and Central Governments for total farm loan waiver, the protestors wanted the Governments to come to the rescue of the farming community, which is in deep distress due to severe drought and crop loss.

MLA and KRRS leader K.S. Puttannaiah, KRRS office-bearers Nandini Jayaram, K.S. Nanjundegowda and others led the demonstration. Tight Police security was provided around the DC office.

MLA K.S. Puttanaiah leading a demonstration in Mandya. Pic. right: ***Farmers led by KRRS leader Hosakote Basavaraj protesting in Mysuru.***

Meanwhile, over 30 members of Jaya Karnataka staged a rasta roko at Sir M.V. Statue on Mysuru-Bengaluru road in protest against the release of Cauvery water to Tamil Nadu. They warned of intensifying the agitation if the State Government continued to release water.

In another protest, over 40 members of Karnataka Rakshana Vedike staged a road blockade at Sanjay Circle on Mysuru-Bengaluru Highway over the same issue.

As a result, traffic on the busy Mysuru-Bengaluru Highway was disrupted for a few minutes, before the Police dispersed the protestors at both the venues.

However, there was no vehicle pile-up on the road as the Police ensured smooth flow of traffic at both the points.

PROTESTS IN MYSURU

In response to a Nationwide stir, called by farmer associations across the country, over 30 farmers under the banner of Karnataka State Sugarcane Growers Association staged a demonstration in front of the Taluk Office in Nazarbad this morning, demanding total waiver of farm loans.

Engineering student commits suicide

Mysuru, July 3 (RK&KS)- An engineering student who attempted suicide and was admitted to a hospital, breathed her last early this morning.

The deceased has been identified as Samyami Gowda (21), a final year BE Computer Science student at GSSS Institute of Engineering and Technology for Women on KRS Road and a resident of BEML Layout in Srirampura here. She had written theory exams and was to complete the practical exams.

Samyami's sister noticed her trying to hang herself in her room at about 6.30 pm yesterday. She informed the family members, who rushed Samyami to Apollo Hospital, where she breathed her last early this morning.

Samyami Gowda

Kuvempunagar Inspector Vijaykumar, who has registered a case in this regard, shifted the body to MMC&RI mortuary for post-mortem. The body would be handed over to the family members, later in the day. The reason for the extreme step is yet to be known.

9 Rapid Response Teams

launched to combat viral fever

Mysuru, July 3 (MTY&NNN)- The District Administration is on an overdrive combating the rise in dengue and other viral diseases in the district including the city. They are leaving no stone unturned to battle the fear that has gripped the people about the rising viral fever cases.

In response to this, the District Health and Family Welfare Department, this morning launched an additional nine Rapid Response team to the already existing three teams since two years, at the District Health Office premises, Nazarbad. In all, there are 18 such teams in the District.

DHO Dr. B. Basavaraju speaking after the launch said that there are 11 to 15 members in each team that consist of a Medical Officer, ASHA Workers and Nurses from Primary Health Centres. Each team visits houses individually to create awareness as to how and why dengue, Chikungunya, Malaria and other viral diseases spread and how to control them.

According to Dr. Basavaraju, the water collected in buckets for more than two days should be thrown out as the larvae of the Aedes Mosquitoes get collected in such stagnant water. Apart from this, the larvae would be found in air conditioners and even in flower vases.

The spread of diseases is not only found in areas like Rajiv Nagar, Ghousia Nagar, N.R. Mohalla, Shanti Nagar, JP Nagar but also in other residential areas like Saraswathipuram, Lakshmipuram, Kuvempunagar, Jayalakshmipuram, he said and added that due to scanty rainfall this year the aedes mosquito larva are thriving. Otherwise, it would be washed away in the heavy rains.

Debt-driven deaths

The term *average* is made to be understood a number expressing the central or *typical* value in a set of numbers, while there is very little about average being typical value of that set of numbers. A glaring example of being misled by the term average is *life expectancy* in a population which is a statistical measure of the *average* time in years people of that population are *expected* to live. That measure or number is based on a number of demographic factors, including gender. In the land's population, going by its officially declared life expectancy, males are endowed with a longer life-span than females, again on an average.

However, seen cursorily, reality doesn't *prima facie* seem to be in line with that official data, going by the predominance of males figuring in media reports on deaths due to road mishaps (nearly 150 thousand in a year), suicides (reportedly exceeding 50,000 a year), some diseases (such as cardiovascular), murders, shooting at unruly crowds and so on, in all of which females don't figure conspicuously. Further, nearly all farmers ending their lives in the land are males.

Psychiatrists aver that depression drives nearly one in five with that affliction to commit suicide. The factors causing depression being many, one is prompted to suggest studies in depth concerning the phenomenon of suicide so that measures can be devised to address the matter. Stating that depression, along with unbearable debt-burden leads to suicides amounts to oversimplifying the issues relating to unnatural ways of ending life.

Farmers of the land, particularly in its Southern States, currently committing suicide in unprecedented numbers are making news in the columns of dailies with such regularity that the readers of suicide reports seem to have *accepted* them as routine. Also, the governments of the respective States *announcing* relief amounts to the families of farmers ending their life is also a routine, giving the impression of closing the matter in every case.

Data sourced to the National Sample Survey Office throws light on the borrowing patterns of India's farmers which should trigger informed circles to suggest action to address the issues bugging the farmers of the country. Andhra Pradesh reportedly has the highest share of indebted agricultural households (92.9 percent), Telangana (89.1), Tamil Nadu (82.5), Kerala (77.7) and Karnataka (77.3), a pattern that has failed to rattle the urbanites.

EDITOR'S BOTTOMLINE

Everything about the US is huge. The portions of food that restaurants serve are super-sizedly huge. The amount of energy its people consume by way of petrol, and diesel and electricity is huge. Its balance of payments deficit – the amount by which its imports exceed its exports – is huge. And its newly-anointed President arguably has the hugest mouth of any world leader. But perhaps the biggest thing about the US is that it has nine different time zones, which shows just how big the country is. There is Atlantic Time, Eastern Time, Central Time, Mountain Time, Pacific Time, Alaska Time, Hawaii-Aleutian Time, Samoa Time, and last but not the least, Chamorro Time. Now, that's a lot of different times for one country to have, and something the US can justifiably be proud of. It's not just that India has a population more than four times the size of America's. Nor is it that India's mighty Himalayas make the highest mountains in the US look like a teenager's pimples. Officially, India has only one major time zone: Indian Standard Time (IST). In Assam, and other parts of eastern India, there is also Plantation Time, which is 30 minutes ahead of IST. But unofficially India has as many different time zones as it has people. Because each and every one of us believes in functioning according to their own time-frame, be it in keeping an appointment, meeting a deadline, or anything else. So IST really represents 1.2 billion plus time zones, standing as it does for Individually Selected Time. — *Jug Suraiya in The Times of India.*

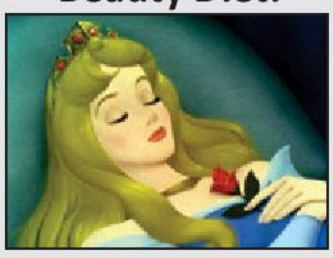
The Sleeping Beauty Diet!



New York: If you're sleeping, you're not eating. That's basically the main idea behind the Sleeping Beauty Diet, an increasingly popular weight loss method that encourages people to take sedatives in order to sleep for up to 20 hours a day and skip meals.

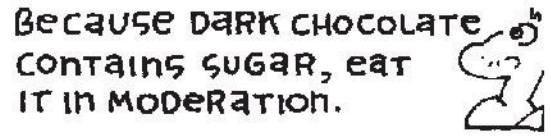
The most dangerous aspect of the Sleeping Beauty Diet is the use of sedatives, to force the brain to sleep a lot more than it needs to. No matter how much you enjoy sleeping, it's unlikely that you can do it naturally for 20 hours out of 24, without the use of medication. This opens you up to all kinds of risks, from possible overdoses to addiction, which can be very hard to beat. It is rumoured that even Elvis Presley used it during the 70s, when he needed to fit his iconic costumes.

Turquoise River

San José: Up until four years ago, Rio Celeste, a 14-kilometer river in Costa Rica's Alajuela province, was a complete mystery to scientists, who could not understand why its waters had an unusual turquoise colour. And then they realised that it wasn't turquoise at all. Theories regarding the turquoise colour of Rio Celeste had been circulating in the scientific community for years, but nobody had ever managed to provide enough evidence to solve this natural enigma. In 2013, a team of scientists from the Universidad the Costa Rica and the Universidad National, took water samples from both Rio Celeste, and its two tributaries, Sour Creek (Quebrada Agria) and the Good View River (Río Buena Vista). The first thing that caught the scientists' attention was that while the waters of Rio Celeste were a vibrant turquoise, the samples they collected in their test tubes were completely transparent. As tests revealed no unusual chemicals in the water, and keeping in mind that the water only appeared turquoise in the river bed, Costa Rican scientists started considering the possibility of an optical illusion. They noticed a layer of a whitish substance that covered all the rocks at the bottom of the Río Celeste. Sour Creek had very small, but it was abundant in the water of Río Buena Vista.

HEALTH CAPSULE
by Bron Smith

What are the health benefits of eating dark chocolates?



A new study has found that eating dark chocolates reduce high triglycerides, improve insulin resistance and reduce systemic inflammation, which are all risk factors for cardiopulmonary disease. The greatest benefits were found among those who consumed between 200 and 600 MG of cocoa flavanols per day.

** Health Capsules is not intended to be of a diagnostic nature.*

NAREDCO Architects' Award ceremony on Aug. 19

Mysuru, July 3 - National Real Estate Development Council (NAREDCO), Mysuru, in association with Indian Institute of Architects, Mysuru chapter, will award architects in city to recognise their talent and for their contribution to the construction industry. The ceremony will be held on Aug. 19 at Country Inn and Suites, Hebbal at 6.30 pm.

The awards for architects will be in six categories and there will be an award exclusively for builders and developers under "Best Real Estate Project of the Year" category. The categories for the awards for Architects are as follows:

(1) (a) Private residential and (b) Group housing
(2) Public buildings and institutions
(3) Commercial buildings
(4) Industrial buildings
(5) Green buildings
(6) Life-time achievement award
(7) Best real estate project of the year

Along with the above categories, NAREDCO will also give awards to the best design/ thesis of the student currently studying at architecture schools in Mysuru.

The recognition of the best work done by architects will be judged by a jury which will consist of five eminent architects who are having expertise in the selection process. All the architects, builders, developers and other stakeholders of the industry in Mysuru will participate. A souvenir of NAREDCO Mysuru will be released on the occasion.

NAREDCO is an apex body which was established as an autonomous self-regulatory body in 1998 under the aegis of Ministry of Housing and Urban Poverty Alleviation, Government of India. It advocates developing standards for efficient, effective and ethical real estate business practice valued by all the stakeholders of the real estate industry and to create and sustain an environment conducive to the growth of real estate industry in India.

Really...?

- *A dik-dik is a tiny antelope that lives in East Africa, Namibia and Angola. Dik-diks weigh between three and six kilogrammes.*
- *Female polar bears normally start having baby cubs at the age of four or five.*
- *Fireflies are also known as lightning bugs.*
- *Noctule bats fly before sunset, whereas Pipistrelles appear soon after sunset.*
- *Most young fireflies feed on nectar and pollen, although adult fireflies do not need to eat to survive.*

LAUGHTER THE BEST MEDICINE

Wife was in the ICU. The husband was unable to control his tears...
Doctor: *We are trying our best, but can't guarantee anything. Her body is not reacting. It seems she is in a coma.*
Husband: *Doctor please save her. She is just 30-years-old and the family needs her.*
Suddenly, something happened. Miraculously, the ECG started beeping like crazy. A hand moved, her lips mumbled
Darling, I'm 29, not 30 !!

VOICE OF THE READER

Tackling parthenium
menace needs concerted effort

Sir,

I have been reading that many residents have been complaining about the increasing menace of parthenium in parks, vacant sites, roadsides etc.(*SOM* dated June 19, 24, 25). There have been complaints of increased problems of mosquitoes, rats, rodents and snakes. They have been exhorting the MCC to take action in controlling this menace.

Parthenium is an alien invasive weed, supposed to have introduced into the country as a contaminant in wheat imports under the PL480 from USA in the early fifties. First recorded in Pune in 1955, the weed has spread like wildfire and has now taken over the entire country.

It is known to cause skin allergy and breathing problems is sensitive individuals. With its high seed production capacity and dissemination through wind and movement of vehicles and animals, the weed spreads fast and colonises the space by replacing the native flora. The livestock is therefore greatly affected by this as they are deprived of fodder.

The weed is not touched by the livestock (not even by goats) as they contain high phenolic compounds. It is not even attacked by any serious insect pests or pathogens. These are facilitating the unrestricted growth and spread of this invasive weed.

The weed is difficult to control. Uprooting of young plants before they flower is effective but is expensive as it needs to be done frequently. Many chemicals (herbicides) are available which are very effective against parthenium and are inexpensive. **There are some which will kill only parthenium without affecting the grass. They are very safe if used judiciously. An introduced insect Zygogramma bicolorata (Mexican beetle) offers biological control of this weed.** However, despite intense efforts by Indian Council of Agricultural Research (ICAR), the technology has been found to be of limited use. But it has its own advantages and can be one of the components in the overall long-term management of the weed.

There is a need for increased public awareness of the negative impact of the weed and its management strategies. It requires a collective effort by the community and the civic body. Selective and careful use of herbicides will be the cheapest and most-effective approach in managing this weed. I urge the MCC to treat this as a serious problem and initiate action to control the weed on a war-footing. I am willing to provide technical guidance, if required.

—N. T. Yaduraju,
Former Director, ICAR-Directorate of Weed Research, Jabalpur
Mysuru 1.7.2017

Gender Concerns in NCERT Textbooks: A Clarification

By Prof. Y. Sreekanth, Principal, RIE, Mysuru

Recently several news-papers have published news items expressing gender concerns in NCERT textbooks. This is based on the research report of Ms. Leclere, a French National, which provides a lopsided understanding of the gender concerns.

Gender equality does not mean that in every aspect of 'teaching and learning' there has to be an equal and proportionate representation of men and women. This kind of analysis is too mechanical and trivialises the purpose of attending to gender sensitivities and concerns.

Apparently, Ms. Leclere has missed the subtle elements of the textbooks in the absence of her knowledge about Indian culture, values, ethos and practices within and outside the school system. The reality of the society is depicted in the textbooks and positive changes are to be initiated through discussions and deliberations in the classroom.

For example, in the lesson *"The Story of Food"* of Class III Environmental Studies (Page No.92), two contrasting scenario are provided and the children are asked to relate them with their own family environment in order to create awareness among the children. This provides an ample scope for critically examining what happens in the surroundings in which children live. These aspects have been either completely ignored or misinterpreted by Leclere which sends a wrong signal to public.

Though traditionally the role of women has been different, of late women are entering into new occupations. This trend is captured and placed in the textbooks to project a historical overview and changing scenario in the country. This cannot be considered as retrogressive.

The study looks at gender concerns in isolation and without considering as to how a positive environment needs to be created among the children through appropriate content in the textbooks; and critical processes through which the children's understanding has to be nurtured, etc., will not do justice in providing a rational understanding about gender concerns.

City doc elected to ACP, India Chapter

Dr. Suresh Babu

Mysuru, July 3- Dr. M. Suresh Babu, Professor of Medicine, JSS Medical College and Hospital, Mysuru, has been elected from South Zone to the Governing Council of **American College of Physicians (ACP), India Chapter.** He will be representing the Southern States of Karnataka, Tamil Nadu, Andhra Pradesh, Telangana and Kerala.

ACP, India Chapter is the sixteenth international chapter established in 2015 by the American College of Physicians to enhance the quality and effectiveness of health care by fostering excellence and professionalism in the practice of medicine. With 1,48,000 members from countries across the globe, ACP is the largest medical-specialty society in the world and India is one of the fastest growing international Chapters. Dr. Suresh Babu was the past Vice-President of Association of Physicians of India (API), Karnataka Chapter and President of API, Mysuru.

AIMIT, Thya Institute Of Management & Information Technology, Vidyaranyapuram, will be conducting a free workshop on 'Learn basics of C Programming in a day" for those who have passed PUC and are aspiring to join BE, BCA or any Degree/ Diploma courses, on July 8 from 10.30 am to 5.30 pm. Last date for registration is July 5. The objective of the workshop is to enable a novice [beginner] to learn Basics of C programming in a day which acts as a platform for learning any other Programming language easily as basic knowledge of C programming has become a necessity in all fields of Education. All the participants will be issued a certificate on successful completion. For registration, call: 0821-2485510 or Mob: 94480-11009.

MCC Ward 32 by-poll: 47.99 percent voting recorded

EVMs secured at Strong Room

Police keep tight vigil; Counting of votes on July 5

Manju Madesh Prakash

Mysuru, July 3 (RKB&DM)- The MCC Ward 32 by-poll saw a poor turnout yesterday, with only 47.99 percent voting recorded.

Out of the 10,258 voters in the Ward, only 4,923 cast their votes, with 2,464 women and 2,459 men exercising their franchise.

Booth No. 340 recorded the highest polling with 64.76 percent while Booth No. 333 recorded the lowest at 25.65 percent.

The polling took place at 12 booths — six in Nirmala Convent on V.V. Mohalla second main and six together in Government Primary School on third main V.V. Mohalla and Government PU College, Vontikoppal.

EVMs were used for the poll in which five candidates have locked their horns — SBM Manju of JD(S), K. Madesh of BJP, B.K. Prakash of Congress, Mangalamma of Bharatiya Dr. B.R. Ambedkar Janata Party and B.J. Mahabalaraj, an Independent.

However, the Ward is witnessing a three-cornered contest with SBM Manju of the JD(S), K. Madesh of the BJP and B.K. Prakash of the Congress locked in a keen tussle.

The by-poll was necessitated after JD(S) Corporator C. Mahadesh was disqualified following his conviction in a double-murder case. The polling began on a sedate note at 7 am but gained momentum as the day progressed. However, the turnout was well short of the expectation with only 47.99 % voting recorded, when voting concluded at 5 pm.

The low turnout has caused anxiety among the contestants, who had expected the voters to turn out in large numbers, with Sunday being a public holiday.

Soon after the voting concluded, the EVMs were shifted to the Strong Room in Srimanmaharaja Sanskrit Pathashala on Sayyaji Rao Road. Tight Police security has been provided at the Pathashala. The counting of votes will be taken up on July 5, when the fate of the candidate will be decided.

INTUC wants Rahul Gandhi as Congress President

INTUC National President G. Sanjeeva Reddy is seen addressing the gathering at Hotel Le Ruchi on Hunsur Road in city yesterday as others look on.

Mysuru, July 3- The two-day National Executive Committee meet of the Indian National Trade Union Congress (INTUC) has resolved to support the move to elevate Amethi MP **Rahul Gandhi** as the Congress President.

The INTUC said that it will help the party to elevate the Party's Vice-President ahead of the Lok Sabha polls in May 2019. It said Rahul's elevation will help galvanise the party cadres leading to better performance.

The meet, which concluded on Sunday at Hotel Le Ruchi on Hunsur Road here, resolved to support the Congress move, to make Rahul the party Chief.

Speaking to press persons at Jaladarshini Guest House after the meet, INTUC National President G. Sanjeeva Reddy said that the INTUC has endorsed the view among senior Congress leaders that Rahul should take over the mantle of the party.

Lashing out at Union Labour and Employment Minister Bandaru Dattatreya for not addressing labour issues, Reddy demanded the resignation of the Minister. Alleging that Dattatreya had failed to protect the interest of the labour force in the country, he urged Prime Minster Narendra Modi to drop Dattatreya from the Cabinet.

Accusing the BJP-led NDA Government of trying to weaken INTUC, Reddy said that the INTUC will take up the issue of privatisation of Public Sector Units (PSUs) across the country. Critical of the move to privatise BEML,he said that the INTUC will extend support to BEML Employees Association to stop privatisation moves.

Reddy further said that a national -level rally will be organised at New Delhi on Aug. 8 to oppose the anti-labour and anti-people policies of the Union Government.

INTUC office-bearers S.S. Prakasham, District Congress President Dr. B.J. Vijaykumar, ZP Member Manjunath, leaders Mavinahalli Ravi, Dhananjaya, Venkatesh, Vishakantamurthy and Prakash Kumar were present at the meet.

No consensus on merger of HMS with INTUC

The two-day meet which deliberated on the merger of Hind Mazdur Sabha (HMS) with INTUC, failed to arrive at a consensus on the possible merger.

Anup Singh of Haryana, stressing on the need for the merger of the two National Unions, maintained that the merger will bring more strength to the labour force across the country.

While most of the INTUC members endorsed Anup Singh's opinion, some expressed reservation about the merger saying that it needed more elaborate deliberations.

Obituary

Chendrimada Sundari Machaiah

Mysuru, July 3- Chendrimada Sundari Machaiah (Kalengada), wife of late Chendrimada Raja Machaiah, passed away yesterday afternoon at her residence in Benson Town, Bengaluru. She was 74.

She leaves behind her son Vachan Chinnappa, daughter Yamini Muthanna (noted Bharatanatyam dancer), son-in-law Kotera Vinu Muthanna and a host of relatives and friends. Last rites were performed at Kalpalli in Bengaluru this afternoon.

Thousand women take out march to save environment

Saplings and seed balls distributed

Mysuru, July 3 (RKB&US)- An awareness rally to save environment, organised jointly by Dharmasthala Rural Development Project (DRDP) and Rajeev Sneha Balaga, was taken out in city this morning with the theme 'Save Environment Today for a Peaceful Tomorrow.'

About 1,000 women members of DRDP participated in the rally holding placards with meaningful messages like 'Protecting environment is everyone's responsibility', 'Shun plastic, make life classic', 'Conserve water, protect environment' and 'Destroying environment is destruction of mankind'.

The rally was launched by H.V. Rajeev, President of District Co-operative Union, at the premises of MMK&SDM College in Krishnamurthypuram here by distributing saplings and seed balls. Saplings were also planted in the College premises.

The rally passed through RTO Circle, JLB Road, Krishnaraja Boulevard and culminated at the DC's office.

Speaking on the occasion, DCF (Social Forestry) D.M. Nagaraj Achar pointed out that one-third of land area should be forest which had dropped pretty low and now bettered to 23% which needs to be improved further. He said that giving good to environment would reflect the quality of life.

DRDP Regional Director Srihari, District Director V. Vijaykumar Naganala, Project Officer K. Anand, College Principal K.V. Damodara Gowda and others were present during the programme.

Move to construct Ram Temple at Ayodhya gains momentum

Lucknow, July 3- As soon as Yogi Adityanath-led BJP Government came to power in Uttar Pradesh, the construction of Ram Temple at the disputed site in Ayodhya is gaining momentum.

In a major development, the Sadhus and Sanths have come together to chalk-out a plan for its construction, after Guru Purnima. They will be coming up with a blueprint for a massive Ram Mandir, after they meet at the Seetapura Naradananda Ashram, said Naradananda Ashram Chief Swami Vidya Chaitanya Maharaj to a media organisation.

He said that he had met Chief Minister Yogi Adityanath in this regard on June 27 and expressed confidence that the construction of Ram Temple will definitely begin by 2019.

The Sadhus, Sanths and heads of various Mutts will be joining hands to start a *Jan* (people) Campaign, said the Ashram Chief Swami Chaitanya Maharaj.

As part of Guru Purnima on July 9 in Naradananda Ashram, many religious programmes will be held including a special Rathotsava. The Sadhus and Sanths from Rajasthan, Bihar, Madhya Pradesh, Uttarakhand and other States will participate in these programmes.

During this period, the blueprint for the temple will be decided, said Chaitanya Maharaj. He had been touring different States for this purpose for more than a month and returned recently, he said.

Rashtriya Kisan Manch (National Farmers Forum) President Shekar Dikshit said that till the situation of farmers and sages does not improve, Ram Rajya in the country cannot be transformed into a reality. Both these are the wealth of the country. If these two suffer, then the Sadhus-Sanths community will not tolerate, he warned. The Sadhus and Sanths will come together and fight against the moves to grab the lands belonging to the Mutts, declared Dikshit.

BEML launches cleanliness drive at Brindavan Gardens

Hands over 20 plastic dustbins-cum-trolleys to Cauvery Neeravari Nigam

Mysuru, July 3-The Bharat Earth Movers Limited (BEML) senior executives and staff, numbering more than 100, undertook a cleanliness drive at Brindavan Gardens, here yesterday.

BEML Mysore Director (Mining and Construction) B.R. Vishwanath and Executive Engineer of Cauvery Neeravari Nigam Basavaraje Gowda launched the cleanliness drive.

The company, in its attempt to bring about awareness among its workmen, had initiated many projects inside its premises since more than ten months and has been successful in bringing some radical changes in its work culture, with management's continuous and sustained efforts. Further, the Chairman and Managing Director of BEML Deepak Kumar Hota had identified Brindavan Gardens to launch the cleanliness drive.

"BEML would deploy a minimum of 50 persons on any Sunday, once in a month for this *Shramdaan.* The cost of transportation of its men, diesel cost, maintenance and repair of equipment used for this job, will be completely borne by BEML. BEML is thinking of organising street plays, which would create awareness among the public during evening times on some Sundays," said Director Vishwanath in his inaugural address.

Executive Engineer Basavaraje Gowda lauded the efforts of BEML in launching the cleanliness drive at the Gardens.

BEML has handed over 20 plastic dustbins-cum-trolleys at a cost of Rs. 50,000 to the Cauvery Neeravari Nigam. The company is planning to display awareness posters near food junctions, where a lot of garbage is collected.

CGM and Head of Mysore Complex, B. Shankar, GMs Sanjay Som and Sudarshan, GM and Head of Engineering Division Ilangovan, HR Chiefs Anbazagan and C.N. Raju, Plant Engineering Head Hanumanthu, Materials Head G. Yoganand, Finance Head Aproop Kumar Sinha, Security Chiefs Gnana Prakash and Ranoji , Vigilance Chief J. S. Sridhar, President of Employees Union Das, Officer's Guild Secretary B. R. Channaveerappa, office-bearers Chand Singh, Shivappa, Nagashayana Reddy, Shiva Kumar, Venkat Reddy, Cheluva Raj, Ambi Kumar Babu, Saravana and SC and ST Welfare Association President D. Narayana were present, according to a press release from BEML's Nagamangala Narasimha Murthy.

Rakshit-Rashmika engagement this evening at Virajpet

Virajpet, July 3 - Simple Star Rakshit Shetty and Rashmika Mandanna will get engaged at a lavish ceremony to be held at Serenity Hall in Virajpet this evening. The family has invited close friends, relatives and few from Kannada Film fraternity for the ceremony. The main event will begin at 6.30 pm.

Rashmika Mandanna is expected to be dressed in a peach colour gown while Rakshit Shetty will be donning a cream tuxedo with a peach colour tie. Both Rakshit and Rashmika, who were present at the SIIMA event in Abu Dhabi on June 30, won the Best Entertainer of the Year and Best Debutant (Female) awards respectively for *Kirik Party*.

The invited guests have been asked to bring the invitation along to gain access into the hall. Meanwhile, the Police have increased the security at the function hall to ensure the event is held without any hassles.

Yet another Mysurean enters the world of fashion

Shruthi Vineet

Mysuru, July 3 - Of late, Mysureans seem to have caught up with the fashion world. After Shwetha Singh, a Mysurean who lives in Manchester (UK), was crowned the first runner-up in the '*Mrs. South India-2017*' pageant organised by Mrs. India Pageants and Productions Pvt. Limited at Chennai recently, it's now the turn of another fashionista from Mysuru to announce her arrival on the fashion scene.

Shruthi Vineet, a Mysuru-based entrepreneur now settled in Bengaluru, is all set to take part in the *Haut Monde Mrs. India Worldwide Season 7* to be held at Vietnam and New Delhi this month.

Shruthi, who is among the 16 contestants from South India, will be representing Mysuru at the world pageant. The event is an opportunity for the contestants to interact and socialise with the bigwigs of fashion and film industry.

A passionate model since her college days, Shruthi who runs a HR Consultancy in Bengaluru, is the daughter of Mysuru-based businessman N. Ravi and Anita Ravi.

Her husband Vineet Patil runs online gaming business based in UK and the couple are blessed with a son Vishnu.

City's Chandan Achar wins SIIMA Award

Chandan Achar** (right) **is seen with Rakshit Shetty at the SIIMA event.

Mysuru, July 3 - Chandan Achar of Mysuru has won the South Indian International Movie Award (SIIMA) for Best Supporting Role in the movie *Kirik Party* starring Rakshit Shetty and Rashmika Mandanna, at a glittering event held at Abu Dhabi National Exhibition Centre in United Arab Emirates on June 30.

Best Lyricist - Dhananjay Ranjan *(Belageddu Yaara Mukhava - Kirik Party);* **Best Entertainer of the Year -** Rakshit Shetty

Ramakrishna Paramahamsa statue
to be installed at Ramakrishnanagar Circle

MUDA Chairman D. Dhruvakumar is seen inspecting the works on Ramakrisha Paramahamsa statue at sculptor Arun Yogiraj's workshop in city yesterday. Picture right shows the newly-constructed Ramakrishna Paramahamsa Circle awaiting for the installation of the statue.

Mysuru, July 3 (PM&VNS)- Ramakrishnanagar Circle will soon be installed with the statue of Sri Ramakrishna Paramahamsa. The statue of Sri Paramahamsa, which is 15 tonne and 10 ft. tall, will be installed by Mysuru Urban Development Authority (MUDA) in a month.

Arun Yogiraj, the city sculptor, who carved the recently-installed statute of Jayachamarajendra Wadiyar and yet to be installed Dr. B.R. Ambedkar's statue, has been carving the statue of Sri Paramahamsa at his workshop in city for the past 10 days. Speaking to *Star of Mysore*, Arun said that the statue was being carved using a white marble brought from Rajasthan. "The marble is around 45 tonne and once the statue is ready it will weigh 15-16 tonne. It will be placed inside a pedestal resembling lotus for which the work is nearing completion," he said.

The statue will stand 10 ft. tall and is said to be the tallest statue of Sri Ramakrishna Paramahamsa in the country, according to sources. Arun Yogiraj is being assisted by eight other sculptors.

MUDA Chairman D. Dhruvakumar, who visited the workshop, told *SOM* that the Circle had been developed at a cost of Rs. 4.30 crore on the lines of K.R. Circle and MUDA was spending Rs. 47 lakh for the statue.

Prahaladacharya anointed as Sosale Mutt's Pontiff

Mysuru, July 3 (SK)- The historic Sosale Mutt got its 41st Pontiff following the anointment of Sanskrit scholar D. Prahaladacharya yesterday.

Prahaladacharya was first given the *sanyasa deeksha* at the *triveni sangama* (confluence of three rivers) in T. Narasipur before being anointed as the Mutt's Pontiff.

Following the *deeksha*, Prahaladacharya was renamed as Sri Vidyashateertha Swamiji. After taking up *sanyasa deeksa*, he arrived at Sosale Mutt and offered special pujas to Lord Krishna, Mutt's main deity, before taking over the reins of Sosale Mutt.

Previously, Prahaladacharya, a native of T. Narasipur, was teaching Sanskrit at Sanskrit University in Tirumala (Andhra Pradesh). After his retirement, he settled in T. Narasipur running a Gurukula.

The anointment came after Vidyamanohar Teertha Swamiji abdicated his *peetha* following charges of embezzlement of Mutt's property and misuse of valuables donated by devotees over centuries. He was also arrested twice after a devotee had filed a complaint alleging misuse of silver chariot and other valuables.

Sosale Mutt's devotees had also demanded Vidyamanohara Theertha Swamiji to step down as Mutt's head and pave way for anointment of another Pontiff.

State Government had superseded the Mutt in 2012 and had appointed retired IAS officer K. Jairaj as its Administrative Officer.

Mutt's devotees from Mantralaya, Tamil Nadu, Andhra Pradesh, Muzrai Minister Rudrappa Lamani, K. Jairaj, retired Supreme Court Justice M.N. Venkatachalaiah, High Court Justice Venkateshmurthy and others were present.

UoM's Sociology Teachers Assn.

POINT BLANK

Dr. No

By K.B. Ganapathy,
Editor-in-Chief

Those were the days of government hospitals and private doctors. The words clinic and family doctors came later. This was followed by that rare breed FRCS and MRCP, all from England. By 1970s, transfiguration in the medical horizon began. A large number of private hospitals, corporate hospitals and specialists with Indian post-graduate degrees called MDs appeared as healers of the sick. This change also led to corresponding higher cost for medical care and along with it exploitation by the greedy ones.

I began to ruminate about the medical fraternity after reading an article about physicians by Dr. Veena Bharati in the *DH* to coincide with Doctors' Day on July 1. She rightly says the patients these days end up paying more for the luxury of 'star hospitals,' healthcare insurance and the specialists. How true! My friend had a personal experience that he narrated to me just a couple of days back. A similar situation, hence, encouraged by the article of Dr. Veena Bharati, I decided to write this.

A month back, a daily wager, working for a businessman, suffered a thorn-prick on his toe with the thorn getting embedded. In time it became septic, puss was formed and he was limping with pain.

He went to a private clinic, his family doctor that Dr. Veena Bharati had described in her article. The doctor examined him, gave pain-relieving tablets and advised him to go to a small neighbouring hospital as he is not equipped to attend to this problem.

The following day, he was taken to the hospital by a rickshaw costing Rs. 100+ as he was unable to walk and hence no way he could take a bus. Immediately, he was referred to a pathology laboratory for various tests that cost Rs. 800.

The test report was seen the next day by the visiting surgeon of the hospital after taking a deposit of Rs. 2,500. He was asked to go to the hospital the following day to open the wound and remove the puss and the pain-causing thorn. It was done, the wound was dressed and he was sent away to visit again for dressing after two days. Medicine was prescribed that cost Rs. 300.

The dressing cost him Rs. 250. The second dressing cost him Rs. 250 because it was done in the doctor's presence.

The third dressing cost him Rs. 100 because it was done by a nurse. The fourth dressing was done for Rs. 100.

He was advised to come again as there was need for suturing the deep wound. An amount of Rs. 2,500 was collected for this procedure and he was sent back. Again he was asked to go for dressing and it cost him Rs. 250. That malicious, sinister thorn in the flesh of his sole had cost this man, earning Rs. 500 for a day's labour, a fortune indeed — Rs. 9,500 so far. And what about the cost and agony of many visits?

No wonder I see poor people going to Government Primary Health Centres (PHCs) located in different areas of our city and in small towns. Even if the doctor here is corrupt, I don't think it would cost the patient so much.

Well, it is here we come to believe in luck and destiny. If this patient had gone first to a doctor who would attend to such minor procedures (with courage and confidence in his skill) probably he would have come back with relief spending very little.

I agree each doctor has his price as fee. Just like lawyers. But these professions must also have a human face.

I remember our country's No. 1 criminal advocate Ram Jethmalani appearing for the Delhi Chief Minister, Arvind Kejriwal, in a defamation case filed by Arun Jaitley, Finance Minister. Jethmalani had sent a whopping bill of about Rs. Three crore to his client. Kejriwal wanted the Delhi Government to pay the bill but the Delhi Lt. Governor refused to sanction saying Arvind Kejriwal must pay it from his pocket as the case was not against the State of Delhi.

Immediately, the humane face of Ram Jethmalani could be seen. He declared he would fight the case *pro bono*, for free, did not want any fee. Well, Arvind Kejriwal is lucky. The labourer in this case, is not. It is here we come to believe in luck and destiny.

Rail services on Mysuru-Bengaluru double track to begin by July 15

Soon travel in new economy AC coaches with less tariff

Mysuru/New Delhi, July 3 (RK&KS)- With the relocation of Tipu Armoury completed, train services on the new double track between Mysuru and Bengaluru would commence within July 15, according to sources in the Railway Department.

American company PSL-Wolfe Private Limited and New Delhi-based PSL Engineering took up the relocation works of the 228-year-old armoury on March 6, 2017, for which the Railways spent about Rs. 13.5 crore. The nearly 1000 tonne armoury was moved 100 mts away from the original site and the relocation was completed on March 10.

After the relocation of the armoury, the Railway authorities inspected the track doubling works several times and found no deficiency in it.

Sources said that a team from the Statutory Board of the Railways (Commissioner for Railway Safety) would inspect the newly laid double track this week to find out the efficiency and submit its report along with the Efficiency Certificate to the Board.

The Board, after examining the report by the Statutory Board team, would give its green signal for the commencement of train services on the new track, sources added.

Soon, travel in Economy AC coaches with cheaper price

Train passengers will soon have option of travelling in a new class of 'Economy AC coaches' with fares less than normal 3AC tariff.

The proposed fully AC train will have three-tier Economy AC coaches besides AC-3, AC-2 and AC-1 classes as part of the transformation exercise. An added feature would be automatic doors. The Railways is exploring an idea to introduce fully AC trains in select routes, aiming to provide comfort by facilitating AC travel for maximum passengers.

An exercise has been undertaken for a transformation in service by upgrading existing facilities in trains and stations and a separate cell has been created by the railways for this.

"There will not be any chilling effect like in other AC classes and the temperature will be fixed around 24-25 degrees. The aim is to make the passengers comfortable and not make them feel the outside heat," a senior Railway Ministry official said.

9 Rapid Response Teams launched

(Continued from page 1)

The three Rapid Response teams had visited two lakh houses in the last two years and with the addition of nine more teams this time, it is a continuous process to create awareness, said Dr. Basavaraju.

On Saturday, DC D. Randeep, Corporation Commissioner G. Jagadeesha and DHO Dr. Basavaraju had visited Shantinagar and surrounding areas and distributed pamphlets. They had found that though the surroundings were clean there was larva found in the stagnant water in houses, which was brought to the notice of the residents.

District Vector Borne Diseases Control Officer Dr. Chidambara who had given training

to the members of the Rapid Response teams said that the health workers were drawn from PHCs in rural areas for assistance to meet the crisis. They will visit each house and create awareness among the residents.

He said that unlike in rural areas where the people co-operate, the people in urban areas have a tendency to neglect. If there is more larva found in public places, the Response team has been asked to take photographs so that it will be brought to the notice of the Corporation for taking action. Family Planning Officer Dr. Siraj, District Surveillance Officer Dr. Kusuma and others were present.

Farmers up in arms

(Continued from page 1)

Strongly condemning the release of Cauvery water to Tamil Nadu, the protestors urged the Chief Minister to announce total loan waiver, declare SAP (2016-17) for Sugarcane and to immediately stop release of Cauvery water to Tamil Nadu. The association office bearers Varakodu Krishnegowda, Nagaraj and others took part in the protest.

As part of the State-wide stir, the Mysuru District unit of KRRS staged a demonstration in front of the DC office here this morning, demanding the State Government to announce full loan waiver in Co-operative Banks and the Union Government in public sector and commercial banks.

Urging the Government to immediately stop release of water from KRS to TN, the protestors urged the Chief Minister to come to the rescue of the farmers of Cauvery basin by releasing water in canals.

They also urged the Union Government to implement M.S. Swaminathan Committee recommendations as promised by the BJP ahead of the 2014 Lok Sabha polls.

They warned of staging a massive demonstration in Bengaluru on July 10, if their just demands are not met. KRRS leaders Hosakote Basavarj, Hosur Kumar, Ashwath Narayan Raje Urs, Lokesh Raje Urs and others took part.

CM reacts at Hassan

Even as protests continued for the third day today at Mandya over the release of Cauvery water to TN, Chief Minister Siddharamaiah speaking at Hassan, this morning, said, Cauvery water was released to comply with the Supreme Court order and the State Government would never compromise on the interests of farmers.

Asserting that the State Government was very much aware of the water needs of farmers of Cauvery basin, the Chief Minister said the Government was watching the progress of monsoon and would resort to cloud seeding in a couple of weeks if there was rain shortfall.

The Chief Minister is in Hassan to attend the public rally organised by the Congress as part of the party's region-wise rallies with an aim of showcasing government achievements in the past four years.

MCC evicts petty shops

Mysuru, July 3 - The Mysuru City Corporation (MCC) personnel this morning conducted eviction drive in front Government PU College for Girls located on Chamaraja Double Road here.

The eviction drive was taken up following complaints from the students to DC D. Randeep regarding them facing problems from people gathering in front of petty shops located adjacent to the college.

They alleged that people who gathered near the college smoked cigarettes which suffocated them and their repeated complaints to concerned authorities had only fallen to their deaf ears.

ZP CEO Dr. Harish Kumar is in-charge DC of Chamarajanagar

K. Harish Kumar

B. Ramu

Chamarajanagar, July 3 (SS)- Chamarajanagar Zilla Panchayat (ZP) CEO Dr. K. Harish Kumar has taken over as In-Charge Deputy Commissioner (DC) of the district, as DC B. Ramu has gone to Mussoorie in Uttarakhand on a 40-day training.

Ramu, who was recently elevated to the IAS cadre, has been sent on a sabbatical to undergo advanced training at Mussoorie, where IAS officers are usually trained.

Although Ramu was supposed to attend the training, he had skipped it twice earlier. But now, following a government order Ramu has gone on a 40-day training at Mussoorie starting from today (July 3).

ZP CEO Dr. Harish Kumar has been asked to function as In-Charge DC in the absence of Ramu, who is expected to return to Chamarajanagar on Aug. 11.

Ramu had been serving as Chamarajanagar DC for little over a year now.

Dr. Harish Kumar, a native of Karkala, is a KAS Officer of 2006 batch. After serving at various places, he was posted as Chamarajanagar ZP CEO in February this year.

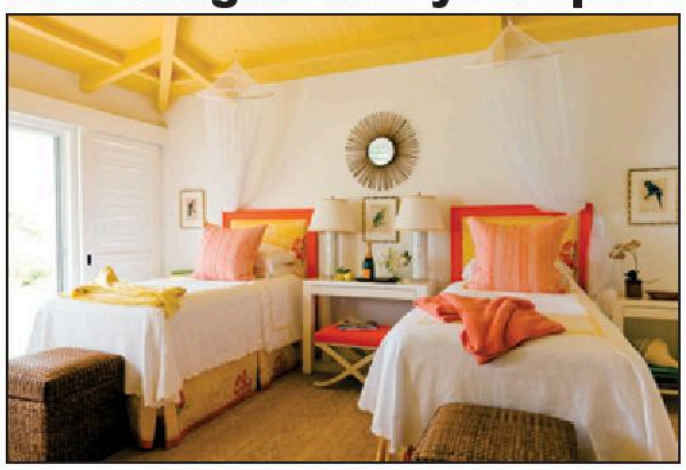
Vaastu-Feng Shui & Bio-energetics

By S.B.S.Surendran
Accredited Master Feng Shui Consultant

Breathing life into your space



Creating a harmonious space and environment that exudes harmony is one of the key dynamics behind this age-old practice. It's no surprise that we would most often be faced with bad energy due to our immediate surrounding and environment around our building. These may give rise to ill-fortune in the form of, relationship, wealth, legal entanglement or illness.

Feng Shui teaches us that our surroundings affect us and that we, in turn, are reflections of our surroundings. Since everything has energy field and is, in a sense, "alive", everything is connected, and everything is always changing, it makes sense that we are greatly influenced by the things and people around us.

The energy in our bodies, the energy of our minds and the energy of our surroundings have a deep and profound impact on our lives. Accumulating clutter and waste, ignoring your bed orientation and directions, unknowingly introducing artefacts, plants and decor which are negative Feng Shui, disturbing the energy of the premises. The most important principle in Feng Shui is to have at least one solid wall in a room as this is said to signify the abode where the positive spirit of the room stays and accumulates and is the foundation to the type of energy existing. Interaction of the one solid wall which can be a feature wall with the rest of the home is vital in enhancing the mood of the home.

Most importantly having a wall with a happy picture of the whole family in the living room on such a prominent wall is a very powerful Feng Shui enhancer which simulates a feel of togetherness and safety to the whole family. Some spaces also have a negative influence on the emotional balance of the occupants and do cause a lot of discomfort too.

The decor of a home can have a very strong influence on the emotions of its inhabitants. Hence, decorate with light, sunny colours such as yellows and oranges.

Some of the simple yet potent advice for proper space alignment and comfort of the occupants are:

• Wall directly facing the bed should generate a feeling of comfort and soothing. It should not be overpowering with clutter or overly sized storage cupboards. Every night the last thing you see before you go to sleep and the first thing your eye catches when you wake up in the morning should be positive and inspiring. Hence this wall can be something which carries positive thoughts which can get imprinted in your mind which in turn leads to pleasant dreams too. Avoid placing images which are depressing, wildlife or images which induce nightmares.

• The decor of a home can have a very strong influence on the emotions of its inhabitants. Hence, decorate with light, sunny colours such as yellows and oranges. Add as much cheering sunlight as possible by using sheer window treatments (or none at all), and hanging mirrors on the walls to reflect the light from nearby windows.

When the building resonates in harmony it leads to both more flow and more energy between occupants and their desires and create prosperity and good health through positive vibes, hence the art of Feng Shui makes it possible to attain these desires.

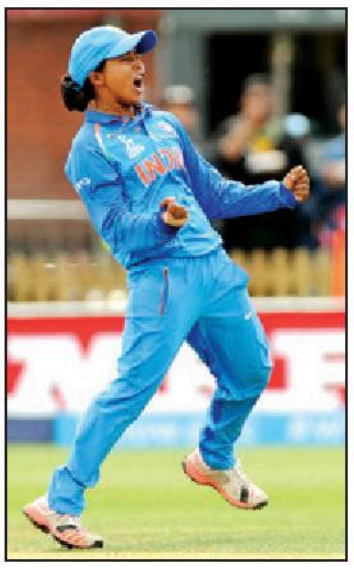
Bhyrappa, Corporator K.V. Mallesh and others. The tournament was organised by All Stars Basetball Club at Puttaraj Gawai Stadium at JP Nagar in city.***

Ekta Bisht spins India to victory against Pakistan



London, July 3 - Left-arm spinner Ekta Bisht came to the fore with a stellar show as India crushed arch-rivals Pakistan by 95 runs in a low-scoring encounter to record their third successive victory in the ICC Women's World Cup here yesterday.

After a couple of impressive outings by the batswomen, it was the turn of Bisht (10-2-18-5) and Co. to defend a meagre total of 169, bowling the opposition out for a low 74 in 38.1 overs.

India now have six points from three games and are at the top of the table. It was a sweet revenge for the Indian eves, who were beaten at home when the two teams met in the ICC World T20 in Delhi, last year.

What looked like a sub-par score turned out to be a challenging one for Pakistani batters, who have never successfully chased more than 134 in a 50-over World Cup game.

They were all at sea against Ekta's arm balls. She removed Ayesha Zafar (1), Sidra Nawaz (0) and Iram Javed (0) in her first four overs to wreak havoc.

Wimbledon Championships 2017

Murray begins title defence

London, July 3- Britain's Andy Murray will open Centre Court play today as he attempts to make history once again at the 131st Wimbledon Championships.

The Scot, 30, begins his title defence against Kazakhstan's Alexander Bublik in the first round at 5.30 pm IST.

Murray, who is fit following a hip injury, hopes to match fellow Briton Fred Perry as a three-time champion. British number one Johanna Konta is also in action on day one, along with Venus Williams and Rafael Nadal.

Defending women's champion Serena Williams is absent as she awaits the birth of her first child. The weather forecast for the early days of the tournament suggests little or no rain but play is guaranteed on Centre Court thanks to the roof, which has been in place since 2009.

Court One will be even more open to the elements than usual this year as work has begun on installing a roof there in time for the 2019 Championships.

And after 647 matches, the two singles champions will walk away with record prize money of 2.2 million pounds while first-round losers will take home 35,000 pounds.

TODAY'S MATCHES

Plea to clear garbage at Cheluvamba Agrahara

Garbage, which is dumped at Cheluvamba Agrahara in K.R. Mohalla, is causing a lot of inconvenience as it emanates foul smell forcing the residents living in the surroundings and the public passing by the road to close their noses. Authorities concerned are urged to take steps to get the garbage cleared at the earliest.

Replace broken tiles on Sayyaji Rao Road

The tiles laid on the footpath near KSIC showroom on Sayyaji Rao Road are broken at some places and is posing danger to the pedestrians. Authorities concerned are urged to get the tiles replaced immediately for the benefit of the public.

Dr. Manu Baligar releases Prof. URA's book 'Ashantha Santha Anantha'

Dr. Manu Baligar, President, State Kannada Sahitya Parishat, is seen releasing late Prof. U.R. Ananthamurthy's book 'Ashantha Santha Anantha' at Maneyangala in Kalamandira premises here yesterday.

Mysuru, July 3 (RKB&US)- Samvahana Prakashana, together with District Kannada Sahitya Parishat, had organised a programme at Maneyangala in Kalamandira premises here yesterday for release of late Prof. U.R. Ananthamurthy's (URA) book *'Ashantha Santha Anantha.'*

Releasing the book, Dr. Manu Baligar, President, State Kannada Sahitya Parishat, opined that URA was a unique writer who came out with new ideas every time and also introspected his works. He added that URA always promoted Kannada and his presence was needed now to hold Kannada in high esteem. Dr. Baligar asked people to learn Kannada but not to neglect English.

Dr. Niranjan Vanalli, Registrar, KSGH Music University, spoke on the book. Parishat Mysuru President Dr. Y.D. Rajanna presided. Book Editor Dr. Jayaprakash Mavinakuli and publisher D.N. Lokappa were present.

Drama Festival concludes

A five-day Drama Festival, organised by Sri Renuka Kala Vrinda, Mysuru, at the Town Hall in city, concluded recently. The following five-dramas were staged to mark the 30th anniversary of Sri Renuka Kala Vrinda: Shani Mahatheme, Tyagi, Sampoorna Ramayana, Daksh Yajna and Kuru Keshtra. Picture shows Kalyana Mantapa scene from the drama 'Dakshna Yajna' where Brugumuni expresses his views to Daksha Brahma regarding his daughter's marriage. Picture below shows a scene from 'Sampoorna Ramayana' where Dasharatha pleads Kakai Maharani not to send his son Rama to forest for 14 years.

Interaction session on 'Tracing missing children' held

Mysuru, July 3- The District Unit of Missing Children Bureau recently held an interaction with representatives of voluntary organisations on tracing of missing children at the District Children Protection unit in Vijayanagar 4th Stage. Presiding over the meeting, CCB ACP C. Gopal called upon the voluntary organisations engaged in child welfare and protection to provide information in missing children and to work towards creating a child-friendly atmosphere in the city.

Pointing out that the Police Department was always willing to lend a helping hand, he underlined the need for voluntary organisation to work towards bringing children to the mainstream.

District Child Protection officer R. Nagaraj, in his address, called upon the voluntary organisations to work together for protecting child rights and to guarantee security and safety for children.

He also highlighted the need for creating a child-friendly atmosphere in shaping the future of children.

Father Edward Thomas, State Director of Missing children Bureau, was the chief guest. The Bureau co-ordinator Binu Varghese, *Baduku* organisation's Dhananjay, Child Welfare Committee President Venkatesh, Margin Lobo, Venkatesh, Anuradha Murthy, Prasanna, S.K. Suresh and others were present.

Two persons accused of naxal activities set free from Mysuru jail

Nandakumar

Mysuru, July 3 (MTY&KS)- Two persons, who were arrested and serving jail sentences in Mysuru Jail for their involvement in suspected naxal activities, were released from the prison yesterday.

The released suspected naxals have been identified as Nandakumar and Devendra from Shivamogga. The duo were accused of involving in naxal activities and the Andhra Pradesh Cyber Police in 2009 had arrested them.

More than 20 cases under Unlawful Activities (Prevention) Act, 1967 was registered against Devendra and he was also accused of anti-social activities.

Another freed person, Nandakumar, used to take active part in his fight for the protection of environment in Kudremukh National Park, Shivamogga, Chikmagalur and other places.

But these two persons were arrested as naxalites and the duo had served seven years in jail. As Devendra and Nandakumar were freed from the accusations, they were released from Mysuru jail. The duo, after coming out of jail, expressed happiness that they were freed of all accusations.

Man prevents Govt. servant from performing duty

Food & Civil Supplies Deputy Director files complaint

Mysuru, July 3 (YDS&KS)- Deputy Director of the Food and Civil Supplies Department has lodged a complaint against a person for preventing a Government servant from performing duty, at Lakshmipuram Police Station.

Dr. K. Rameshwarappa is the Deputy Director who has lodged a complaint against one Nandakumar of H.D. Kote taluk, for barging into the office and creating ruckus.

The complaint states that Nandakumar had applied for granting the Fair Price Shop (FPS) his father had owned on compensation grounds. As he had not fulfilled the conditions sought by the Government, the same was not granted to him, hence Nandakumar had come to the Food and Civil Supplies office and was pressurising the officials to grant him the Fair Price Shop.

The complaint further states that, on June 28, Nandakumar, who came to the Dy. Director's office, threatened staff Shashidhar Nayak and Kumar, thus preventing them of discharging their duties and on July 1 at about 4.30 pm, barged into the office demanding Dr. Rameshwarappa to do his (Nandakumar) work besides threatening him and creating ruckus.

Dr. Rameshwarappa, in his complaint has sought action against Nandakumar.

Senior citizen accuses relative of stealing gold, documents

Mysuru, July 3 (YDS&KS)- Accusing his distant relative of threatening him and making away with gold ornaments and documents, an 82-year-old man has lodged a complaint at Metagalli Police Station in this regard.

Narayana, a resident of Kumbarakoppal here, is the senior citizen who has lodged a complaint against his distant relative Kumar.

The complaint states that Narayana, a widower who is suffering from paralysis, had kept Kumar in his house to take care of him and the households.

The complaint further states that, two days ago, Kumar threatened him and stole gold jewellery and documents, pertaining to immovable properties, kept in the almirah. Narayana has sought action in this regard.

WORD OF THE DAY

Bathos

Meaning: Insincere pathos; sentimentality; mawkishness; (especially in a literary work) an effect of anticlimax created by an unintentional lapse in mood from the sublime to the trivial or ridiculous.
Origin: Bathos comes from the Greek noun of the same spelling meaning "depth." It entered English in the 1630s with its original meaning "depth." Its current sense dates to Alexander Pope's essay (1727) Peri Bathous "On Depth," whose title is taken from the essay Peri Hypsous "On the Sublime" of the otherwise unknown Longinus, who lived between the first and third centuries A.D.
Example: In his fifth sonnet he may, I think, be said to have sounded the lowest chasm of the bathos. (The Miscellaneous Writings and Speeches of Lord Macaulay, Vol. 1 (of 4) - Thomas Babington Macaulay).

THE ODD WORD

Yeep

To cheep; to chirp.

PHRASE OF THE DAY

Knock Your Socks Off

Meaning: To be taken by surprise.
Example: When Hannah gets home from work later today, I have something planned that is going to really knock her socks off.
Origin: The phrase looks to have gotten popular around the mid-19th century, and while today the phrase is typically expressed to describe someone who is taken by surprise, back then it looks to have been mostly used in the sense of 'to defeat someone or something thoroughly, or completely.'

QUOTE BOX

A leader is one who knows the way, goes the way, and shows the way.

—John C. Maxwell

RIDDLE THIS

What is it that does not go when others go nor return when others do?

Answer: House.

CRYPTOQUIP

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

SJ SX RBJJBZ WTZ ASYSVSOGJSTI JT RB ETSIE

MTPI JNB MZGSI JNGI JT RB ATQSIE LC SJ

TODAY'S CLUE: E EQUALS G

Yesterday's Cryptoquip: Half of the modern drugs could well be thrown out of the window, except that the birds might eat them.
